Question: 1. The computer code for the interchange of information between terminal is ..

- Option A. BCD
- Option B. ASCII
- Option C. EBCDIC
- Option D. All of the above

Question: 2. The decoded instruction is stored in _____ .

- Option A. PC
- Option B. IR
- Option C. Registers
- Option D. MDR

Question: 3. SIMD stands for

- Option A. Single Instruction Stream Over Minimum Data Streams
- Option B. Single Instruction Stream Over Multiple Data Streams
- Option C. Multiple Instruction Streams and Single Data Stream
- Option D. Single Instruction Stream Over Media Data Streams

Question: 4. The instruction -> Add LOCA,R0 does,

- Option A. Adds the value of LOCA to R0 and stores in the temp register
- Option B. Adds the value of R0 to the address of LOCA
- Option C. Adds the values of both LOCA and R0 and stores it in R0
- Option D. Adds the value of LOCA with a value in accumulator and stores it in R0

Question: 5. The NOR gate is complement of ..

- Option A. OR gate
- Option B. AND gate
- Option C. NOT gate
- Option D. NAND gate

Question: 6. Which registers can interact with the secondary storage ?

- Option A. PC
- Option B. MAR
- Option C. IR
- Option D. R0

Question: 7. A _____ is a digital circuit that performs the inverse operation of decodes.

- Option A. multiplexer

- Option B. adder
- Option C. subtractor
- Option D. encoder

Question: 8. During the execution of a program which gets initialized first ?

- Option A. MDR
- Option B. IR
- Option C. PC
- Option D. MAR

Question: 9. Pipelining increases the CPU instruction ____

- Option A. efficiency
- Option B. latency
- Option C. throughput
- Option D. Both a and c

Question: 10. Which of the register/s of the processor is/are connected to Memory Bus ?

- Option A. IR
- Option B. PC
- Option C. MAR
- Option D. Both a and b

Question: 11. The _____ is a program whose function is to start the computer software operating when power is turned on.

- Option A. Loader
- Option B. Multi programming
- Option C. None of the above
- Option D. Bootstrap loader

Question: 12. ISP stands for,

- Option A. Information Standard Processing
- Option B. Instruction Set Processor
- Option C. Interrupt Service Procedure
- Option D. Interchange Standard Protocol

Question: 13. _____ is concerned with the way the hardware components operate to form computer system.

- Option A. Computer organization
- Option B. Computer architecture
- Option C. Computer design
- Option D. Computer implementation

Question: 14. The internal Components of the processor are connected by _____ .

- Option A. Memory bus
- Option B. Processor bus
- Option C. Processor intra-connectivity circuitry
- Option D. Rambus

Question: 15. Devices that are used primarily to transport data between the processor and the user are known as ____

- Option A. Data transfer device
- Option B. Basic storage devices
- Option C. Networking devices
- Option D. Data presentation device

Question: 16. _____ is used to choose between incrementing the PC or performing ALU operations .

- Option A. Multiplexer
- Option B. Conditional codes
- Option C. Control unit
- Option D. None of these

Question: 17. Which statement is valid about computer program?

- Option A. It is understood by programmer
- Option B. It is understood by a computer
- Option C. It is understood to use
- Option D. All of the above

Question: 18. The registers,ALU and the interconnection between them are collectively called as _____ .

- Option A. Process route
- Option B. information path
- Option C. Information trail
- Option D. data path

Question: 19. A _____ can be added to your presentation and then used to go to a variety of locations ---- for example, a web address, an e-mail address, a custom show or document, just to name a few.

- Option A. menulink
- Option B. toollink
- Option C. hyperlink
- Option D. slidelink

Question: 20. Quick access to frequently used commands can be found in the _____ toolbar.

- Option A. view
- Option B. kit
- Option C. drawing

Option D. menu

Question: 21. A _____ is a series of slides displayed in a particular sequence.

Option A. placeholder

Option B. template

Option C. layout

Option D. slide show

Question: 22. Slide and title masters contain _____ that reserve spaces for text and footers such as date, time and slide number.

Option A. reservations

Option B. documents

Option C. spaces

Option D. placeholders

Question: 23. A _____ displays a list of commands and usually appears in the toolbar at the top of the screen.

Option A. view

Option B. kit

Option C. menu

Option D. list

Question: 24. Changing the appearance of your slide _____ can alter the slides color, shade, pattern, or texture.

Option A. design

Option B. watermark

Option C. foreground

Option D. background

Question: 25. Adding _____ to objects on your slides not only controls the flow of information, but adds interest to your presentation.

Option A. background

Option B. animation

Option C. transition

Option D. popups

Question: 26. The _____ master controls the format and placement of the titles and text you type on slides, as well as, background items and graphics you want to appear on every slide.

Option A. copyright

Option B. slide

Option C. design

Option D. layout

Question: 27. Notes that include the slide as well as key comments and points you may want to emphasis while you present your slide show are know as:

- Option A. student notes
- Option B. speaker handouts
- Option C. cheat sheet
- Option D. speaker notes

Question: 28. _____ is the special effect used to introduce each slide in a slide presentation.

- Option A. Animation
- Option B. Transition
- Option C. Mapping
- Option D. Bulleting

Question: 29. Designed to create a particular look, a _____ contains color schemes, slide and title masters with custom formatting and fonts styles.

- Option A. template
- Option B. presentation
- Option C. slide
- Option D. background

Question: 30. The slide _____ controls text characteristics, background color and special effects, such as shadowing and bullet style.

- Option A. presentation
- Option B. master
- Option C. show
- Option D. sorter
